## About me

I am a dedicated and reliable individual with a strong work ethic and a passion for technology. I have hands-on experience across multiple industries including fitting & turning, laser operation, security, and camera installation. I am CompTIA A+ certified, currently working toward my CompTIA Network+ certification, and my long-term goal is to grow toward cybersecurity.

I approach every role with consistency, punctuality, and a willingness to learn. I adapt quickly, enjoy solving problems, and I continuously seek to improve myself. While my main focus is to build a career in IT, I am also versatile and open to other opportunities where I can contribute value.

## Experience

### Fitter & Turner (engineering)

Jan 2015 - Feb 2020

Rock Tech Holdings

- Assisted in machining operations on lathe and milling machines, performing precision cuts and ensuring specialized jobs were roughed out to near-final dimensions, maintaining high accuracy and quality throughout the process.
- Performed drilling operations on plates using both hand and machine drills, ensuring precision and accuracy. Utilized tools such as grinders, vernier calipers, and measuring tape to verify internal and external dimensions, maintaining strict quality control throughout the process.

### Laser operator

Oct 2023 - Sept 2024

Beyond Perfection Fabrication (BPF)

- Operated a 3kW Morn laser machine (3000mm x 1500mm) to cut mild steel (up to 16mm), stainless steel (up to 8mm), aluminium & galvanized plates (up to 5mm)
- Used Cypcut software for drawing, leadline, compensate, nesting, auto cooling, and microjoint settings
- Utilized G3 nitrogen program with compressor setup for specific cutting tasks
- Applied skip-part strategy for thick plates to prevent heat concentration
