PROFILE

I am a technically minded individual transitioning from a laser engineering and security background into a long-term IT career. I have earned my CompTIA A+ certification (1100 series) and built a solid foundation in troubleshooting, system setup, and user support. I am eager to apply my growing skills in a professional IT environment, with a focus on desktop support and client solutions. With a positive mindset and a passion for learning, I am ready to contribute and grow within a remote team or an on-site role.
